## WHAT THE SIGNALS SAY

- No public owner organisation is listed.
- Locked against transfer, which is standard for valuable names and is lifted at closing.
- Long held (21 years, 10 months). Owners of long-established names are often less motivated to sell.
- The domain redirects elsewhere, so the owner may not depend on it directly.
- Email is active on the domain, so it may be in private use even without a public website.
